New Changes to Out of Service Criteria for Commercial Vehicles

On April 1, the Washington State Patrol's Commercial Vehicle Division implemented the new changes to the Commercial Vehicle Safety Alliance Out of Service Criteria.

Some of the notable changes will be:

- A tire that is at 50% or less of the manufactures air pressure rating will place a vehicle out of service.
- When a parking brake does not work.
- A vehicle that has a load projecting more than four feet beyond the rear of the vehicle must have at least one required flag on the rear of the load.

Enforcement began April 1st. There will be no grace period on enforcement.
